7 Pieces of Jewelry That Require Exactly Zero Effort

June 6th, 2017 | Stephanie Dore

When it comes to life hacks, finding chic accessories you can throw on without a thought is a game-changer to your everyday routine. The simplicity of finely crafted jewelry adds the necessary finishing touch to any outfit. And a piece that works with everything? Jackpot. We've gathered our seven favorite pieces that require exactly zero effort to incorporate into any outfit.

Diamond Stud Earrings

We aren't afraid to repeat ourselves extolling the virtues of this jewelry box essential. Everyone needs a pair of authentic diamond stud earrings. They go with literally everything and can be worn alone, or paired with other earrings in multiple piercings.

The Eternity Ring

A petite ring in your favorite shade of gold or platinum will sparkle gently from day to night. With diamonds or gemstones that go all the way around, you don't have to worry about how it sits, and it stacks beautifully against other similar styles for an on-trend look.

A Mini Pendant

Pack a big punch with a mini pendant studded with pavé diamonds. This alternative to a classic diamond solitaire pendant (also an essential) is easy to throw on and go. There are so many to choose from you're sure to find one that speaks to your style, whether it's a simple geometric shape or a nature-inspired symbol that lends a unique bent to your look.

The Tennis Bracelet

A classic style that will instantly make you look put-together, the tennis bracelet isn't just for the country club. Pick on in on-trend rose gold or a statement-making pattern for visual interest, the latest styles are ahead of the curve—meaning you will be too.

A Classic Hoop

This foolproof earring style has been around for centuries and is super flattering on everyone. Like your favorite sunglasses or little black dress, throwing on a pair of hoops, no matter the size you choose, might just be the easiest decision you make all day. Go big, go small, go detailed—there's a style suited for everyone.

Your Favorite Color

We all have a color that brightens our day, no matter which side of the bed we wake up on. Wear that. Be it a Princess Diana-worthy blue sapphire or millennial pink, if it's your color, you'll wear it well.

A Diamond Solitaire

Whether you're freshly engaged or treating yourself (a trend we fully support), the diamond solitaire will never, ever, go out of style. As the song goes, "Square-cut or pear-shaped, these rocks don't lose their shape. Diamonds are a girl's best-friend." And we couldn't agree more.
